*Our activity in Metálicas Somonte is mainly the **"MANUFACTURE OF METALLIC STRUCTURES AND LIGHT BOILERWORK"** for which we comply and are certified with the specific standard for metal constructions **EN 1090-1:2009+A1:2011**.*

Metálicas Somonte S.L. considers that Quality is the determining factor of its competitiveness, which ensures the development and permanence of the Company in the market. Its image, success and leadership position depend on it.

*In order to comply with this factor, the company management has implemented the quality management system based on **ISO 9001:2015** and is committed to comply with the applicable requirements in order to achieve **continuous improvement** of the quality management system and ensure customer satisfaction.*

*The objective is to ensure that Metálicas Somonte, S.L. is synonymous with **QUALITY**.*

To achieve this goal requires the commitment of each and every one of the members of Metálicas Somonte. Each person must be responsible for the flawless execution of their work, and has the obligation and the right to insist on the elimination of the circumstances that prevent the performance of incorrect work.

The basic principles of this Quality Policy are:

- *Quality as a strategic decision adopted by the Management, on which the image, success and leadership position of the Company depends.*
- *The purpose of Metálicas Somonte is to continuously improve the products/services supplied in order to permanently guarantee the satisfaction of its customers.*
- *All the functions of the company must advance in a coordinated way towards the achievement of the Quality objectives.*
- *The maintenance and continuous improvement of a quality system according to the expectations of our customers and other interested parties and our own.*
